ABOUT

Senior Software Engineer at Mirakl, working on Mirakl Connect. Over 9 years I've shipped web products across the stack: React and TypeScript interfaces, APIs, and data integrations in Python. My deepest expertise is front-end, and I use AI-assisted development (Claude Code) daily. I care about simple, readable, well-tested code, and about helping teammates grow.

EXPERIENCE

Mirakl · *Senior Software Engineer, Mirakl Connect* **May 2022 – present**

Marketplace platform. Joined as Software Engineer, promoted to Senior; front-end referent in the catalog management team, mostly made up of back-end engineers.

- Lead large catalog management features end to end, from spec to production.
- Set front-end conventions and review code to keep the codebase consistent and maintainable.
- Mentor back-end-focused engineers on React and TypeScript through pairing and code reviews.
- Improve test coverage and CI (React Testing Library, GitHub Actions); use Claude Code daily to ship faster.

Stack: React, TypeScript, GraphQL, Apollo, React Testing Library, GitHub Actions, Claude Code

Iconosquare · *Front-end Developer (freelance)* **Dec 2021 – Mar 2022**

- Contributed to the redesign of a social media analytics platform: user and roles management, industry benchmark analytics, multi-page design integration.

Stack: React, Next.js, Tailwind CSS, JavaScript

Fitle · *Full-stack Developer* **Sep 2018 – Jun 2021**

- Grew from front-end to full-stack in a team of three, on a clothing size recommendation product for e-commerce.
- Maintained the Python/Flask API and MySQL database; wrote Python scripts to import client product feeds.
- Built the React size recommendation plugin, the client admin panel and the SizerPro tool; rebuilt fitle.com with Gatsby.

Stack: React, Gatsby, JavaScript, Python, Flask, MySQL, SQLAlchemy, AWS

Ogust · *Front-end Developer* **Feb 2017 – Sep 2018**

- Led front-end development of Ogust Self Service: Rails views, React components and integration tests.

Stack: React, JavaScript, Ruby on Rails

Grana Tribofinition · *Sales Representative* **Sep 2015 – Sep 2016**

Amkor Technology · *Marketing Internship* **May 2014 – Aug 2014**

EDUCATION

DecodeMTL · *Web Development Bootcamp* **Oct 2016 – Dec 2016**

Université Savoie Mont-Blanc · *Bachelor in Commercial Relationship Management* **Sep 2015 – Sep 2016**

McGill University · *Marketing and International Business* **Sep 2011 – Apr 2015**

SKILLS

Front-end	React, TypeScript, JavaScript, Next.js, Gatsby, GraphQL, Apollo, HTML, CSS, Tailwind CSS
Back-end & data	Python, Flask, SQLAlchemy, Node.js, Express, Ruby on Rails, MySQL, PostgreSQL, AWS
Tooling	Git, GitHub Actions, React Testing Library, Claude Code
